Dear Jim, FOIA approach-new possible 2/8/78

Attached is a copy of Marquis Childs' column in today's Post.

I have marked two places.

The first is what I'd missed if it was in the Post, the abolition of the Foreign Intelligence Advisory Board.

The second relates to the President's Intelligence Oversight Board and its responsibilities.

If it has the "sole responsibility of detecting and reporting on wrongdoing by the various intelligence agencies, including the FBI," we can give them a catalogue: FBI, CIA, Army Intelligence, NSA, probably ~~CIS~~ CIS and perhaps others.

My purpose is to call this and what I think may be possibilities to you attention.

Off the top of the head, perhaps a phone call to Farmer could lead to a meeting and a discussion that ought not omit the deliberate wrongdoing under FOIA and maybe in the end the subjects about which we are the victims of this perpetuated wrongdoing.

Best,
